

MICROBIOME CONNECT

Gut Therapeutics **USA**

An event series dedicated to showcasing the leading drug development and consumer product platforms applying live microbial consortia, engineered microbes, and microbial-derived metabolites to improve the health and wellness of patients and consumers.

2021 Post-show summary

■ ■ Microbiome Connect is really exciting. It leads to new collaboration, and a chance to meet all of the companies in the microbiome space with a unifying perspective ■ ■

CALENDAR

CALENDAR

Microbiome Connect: **Animal**

21 – 22 June 2022 (Boston)

Unlocking the full potential of Animal Microbiome research to support commercialization & achieve sustainability goals

[FIND OUT MORE](#)

Microbiome Connect: **Europe**

6 - 7 July 2022 (Amsterdam)

Discover the latest insights and clinical updates from the leading European microbiome researchers, biotechs and pharmaceutical companies

[FIND OUT MORE](#)

Microbiome Connect: **USA**

16 - 17 November 2022 (Boston)

Showcasing the latest research and innovation in therapeutic and consumer microbiome developments

[FIND OUT MORE](#)

**PHAGE
FUTURES**

**NEW
FOR
2022**

Microbiome Connect will be co-locating with Phage Futures

Phage Futures offer a series of events dedicated to translating phage-based applications into clinically and commercially viable therapeutics.

With so many shared learnings and translatable insights between microbiome and phage research and development we're excited to bring these two communities together in 2022 to discuss:

- Clinical trial design and analysis and the future of phage and microbiome derived therapeutics
- Regulatory and Market Frameworks
- Commercial Applications of Phage and Market Utilisation.
